Word Warrior assignment summary:

You are to serve as a lexicographer, generating a list of at least four words from the text that you believe are worth knowing. The words you pick should be words that were unknown to you before, or familiar words used in unfamiliar or unusual ways. For each word, generate the following: 1) the exact sentence from the book that contains the word in quotes, citing the page number at the end in parentheses, 2) the part of speech based on how it is used in the text, 3) an easy-to-understand denotative (dictionary) definition, 4) your own personal connotative (personal association or feeling) definition, 5) three synonyms (other words that are similar to that word's denotative definition), and 6) a small, simple graphic or illustration to help you remember the word.
